Department ID	-
Form Type ID	1 (New Application)
Version	2.0 - Final
Date	2026-03-12
Total Fields	168 fields 26 business rules 21 statuses
Purpose	Functional Specification for CAF Approval, KUM single window system - Phase 1, Final Version 1.0. This document outlines the features and functionalities of the Combined Application Form (CAF), designed for establishing new industrial units across various districts and zones of Karnataka, as well as for the expansion, diversification, and modernization of existing industrial units in the state.

HOW TO USE THIS SRS DOCUMENT

This SRS (Service Requirement Specification) document is the single source of truth for configuring any government service form in the Karnataka Single Window FormBuilder system. When uploaded to the AI FormBuilder, it auto-generates a complete database-ready JSON.

1. Purpose of This Document

- * Define every field, type, validation, and conditional rule for the form
- * Serve as input to AI FormBuilder to generate DB-ready JSON (no manual SQL needed)
- * Act as a template for onboarding new department services
- * Provide a techno-functional reference for developers, BAs, and department officials

2. How AI FormBuilder Uses This SRS

- Step 1: Upload this document to the AI FormBuilder system
- Step 2: AI reads every PAGE, SECTION, FIELD, and CONDITIONAL RULE
- Step 3: AI generates a single structured JSON matching the DB schema
- Step 4: Admin reviews JSON in preview screen
- Step 5: On approval, JSON is inserted into m_fb_* database tables
- Step 6: Form is live for investors on the Single Window Portal

3. Field Type Reference

Field Type	Description / Examples
TEXT	Single-line text input - Name, Address, PAN, CIN
NUMBER	Numeric input (integer or decimal) - Investment, Area, Employment
